Dear Mr Robin Cusdin

Final inspection report

Holmer Green Junior School

Following your recent inspection, the final version of your report card is now available in the provider portal. We will usually publish this on the Ofsted reports website 5 working days from the date of this letter.

You are required by law to distribute a link to or copy of the report card to the parents and carers of all registered pupils/children at the school within 5 working days from the date of this letter[1]. This includes any registered parents who may not be living with the child and includes pupils who are still on the school roll but not currently attending, for example due to illness or temporary exclusion.

You may also want to share your inspection results in your banners, leaflets or brochures. You are free to highlight your inspection results as you wish, but we request that where you display printed content from your Ofsted report card, you only do so alongside our official QR code 'badge'. You can download this from your page on the Ofsted reports website. The QR code links directly to your latest report card, for fast and easy access to the full report. The download includes different file types and guidelines on how to use them.

If you experience any difficulties accessing the report on the Ofsted website, please contact the inspection support administrator named below who is your best point of contact.

[1] This is required under the Education Act 2005 section 14(4)(c) in relation to maintained schools and section 16(3)(c) for academies, free schools and non-maintained special schools. Regulation six of The Education (School Inspection) (England) Regulations 2005 states that the governing body must take 'such steps as are reasonably practicable' to ensure that the registered parents receive the report within 5 working days.

Post-inspection survey

We would like to hear from you about your inspection experience. We invite you to complete our short post-inspection survey on the provider portal with your views. This includes your views on the impact the inspection is likely to have in bringing about improvement to your provision. By responding to this survey, you will help Ofsted improve the inspection process.

Independent evaluation of the changes to education inspection

We have commissioned IFF Research to carry out an independent review of the changes we have made to education inspection. Within the next two months, you should receive an invitation to complete a short survey, sent directly from opinions@iffresearch-dm.com. To support this, we have shared the email address we hold for you with IFF Research so they can contact you. We encourage you to share your views about your recent inspection. The more responses that are received, the stronger and more representative this review will be. If you choose to take part, your feedback will directly inform our evaluation of the changes we have made to education inspection.

IFF are only surveying those whose report card is published on or before 31 December 2026 to enable them time to analyse responses and report on their findings. If your report card is published from 1 January 2027 onwards we still very much welcome your feedback through our own post-inspection survey detailed earlier in this letter.

Yours sincerely

Lorraine Greco HMI
Lead Inspector
